- Press S2 to erase the reading to 00M00S
- Press S1 again to start counting up from 00M00S

How to Replace Battery

This timer is powered with a piece of LR44 or equivalent. Please follow the steps below to replace battery:

Use "-" screw driver to open back cover here

1. Use a proper size of "-" screw driver to insert to the position of the arrow shown on the above picture, and open the back cover.
2. Use the same screw driver to push battery out of the metal holder as the drawing shown below.

Use Screw Driver to Push Battery in This Direction.

3. Discard the old battery.
4. Insert a fresh battery (positive side up) into the metal holder.
5. At the meantime, full LCD blinking and alarm goes off for 3 seconds, then display 0000_D.
6. Restore the back cover. Be sure the mark "Made in Taiwan" is at the lower position.
